Dear Member

**Re: NHS England Performers List**

We are getting in touch to advise of a recent amendment to the National Health Service (Performers Lists) (England) Regulations 2013.

This amendment details a requirement for all practitioners on the English National Performers List to make a declaration to NHS England confirming that they continue to provide NHS services, under Regulation 9(1)(A). This requirement will come into effect from 1<sup>st</sup> January 2024.

In anticipation of this, we are asking all practitioners on the Performers List in the North West to ensure that their personal information and contact details are up to date on PCSE Online and that they are included on the List for the region they are working in.

When updating this information, practitioners will need to make sure that they tick the box which states whether or not they consent to NHS England sharing their details with the relevant LRC (Local Representative Committees). If either 'yes' or 'no' is not ticked, then the current information added will not be saved on the online portal.

You can access your Performers List record via the PCSE portal at

<https://secure.pcse.england.nhs.uk/>

Further guidance is available here:

<https://pcse.england.nhs.uk/services/performers-lists/gp-performers-list-for-england/>

If you have any queries, please contact the team at

[england.nwperformerslist@nhs.net](mailto:england.nwperformerslist@nhs.net).

Kind regards

Dr Gareth Wallis  
Medical Director for System Improvement and Professional Standards  
NHS England - North West
