

Post Cataract Providers List 2024

After surgery, book an appointment with an accredited optician from this list for a post-operative cataract check.

Please select an optician and book an appointment no sooner than 6 weeks' time. Advise the opticians when calling, that you require a post cataract check following surgery with CHEC.

At a later date, to be advised by the optician, the patient will need a sight test in case they require a new prescription and to update their glasses.
